

## Annual Sustainability Summary 2025

Sustainability is embedded in how we operate our facilities and serve our community. This year we have continued to reduce our environmental impact through energy efficiency, responsible material choices, waste reduction, and sustainable travel initiatives.

# 30–45 Tonnes

Estimated Annual CO<sub>2</sub> Reduction

### Energy & Carbon Reduction

Heat pump heating system reducing reliance on fossil fuels.

Full LED lighting upgrade across indoor and outdoor facilities (40–60% energy reduction).

### Sustainable Materials & Recycling

Artificial turf recycled at end-of-life.

Natural cork infill used on selected pitches to reduce microplastics.

Comprehensive on-site waste separation system.

Aluminium cans prioritised over plastic bottles.

### Sustainable Travel

Excellent public transport accessibility.

95% of staff commute via walking, cycling or public transport.

**Rocks Lane Chiswick remains committed to operating responsibly and continuously improving our environmental performance.**
